

# Ankur Singh

---

## Education

Currently studying at

**Thapar Institute Of Engineering And Technology,patiala**

Year - **1st Year**

Degree - **Computer Engineering**

Graduation - **August,2023**

---

## Technical Skills

In regards to my technical skills I have completed a course on Udemy on **App Development** in flutter and successfully implemented it during **Inter-College SIH** by creating an app which uses geotagged pictures of potholes with google maps integration and firebase backend.

In my first hackathon I created a dynamic website using HTML,CSS and nodeJs.

Presently I'm working on **machine Learning** using pycharm and looking forward to it.  
In the future I'm aiming to get into Thapar satellite program  
And achieve something in it.
